Efficient and resourceful with development and proven success meeting goals. Passionate about user experience and collaborating on innovative and creative products.

## Technical Skills

**Front-end:** HTML5, CSS3, SCSS, Javascript, JQuery, ReactJS, Bootstrap, Materialize

**Back-end:** Node.JS, MySQL, Express, MongoDB, REST API's

**Tools:** VS Code, Git, GitLab, Jira, Zenhub, PostMan, Terminal, MySQLWorkbench, Robo3T, Atlas, Gulp, Figma, NPM

## Applications Developed

### Internal Inventory System - Github [🔗](#) | Live [🔗](#)

- Full-Stack web application for a wholesale fabric company built on MongoDB, React, Express, Redux, Materialize, Node.js, and Atlas.
- Fleshed out an authentication tool from the ground up to help manage employee access to the database.

### Developer Profile Generator - Github [🔗](#)

- Working with GitHub API to dynamically produce an HTML page with the user's profile
- Using Node.js, HTML5, CSS3, and Javascript the user can follow the CLI prompt to generate their Github stats styled with their favorite color.

### Employee Tracker - Github [🔗](#)

- Using CRUD actions, the user can use an employee management database to create employees, departments, and roles as well as view existing entries.
- All actions can be done using the CLI and were developed using Node.js, MySQL, Javascript, and Terminal.

## Professional Experience

### Hack For LA

*Los Angeles, CA 2020-Present*

#### Frontend Developer

- Responsible for implementing new features to the HFLA website along with refactoring legacy code and collaborating across multiple disciplines.
- Successfully launched features to production while working remotely with designers, developers, and project leads.

### JPMorgan Chase Bank

*Lakewood, CA 2011-2019*

#### Private Client Banker 2017-2019

- Successfully created and grew relationships with clients and small businesses in excess of \$10MM. Led a financial literacy initiative and hosted seminars within my area to help my team grow their understanding of finance.

#### Manager on Duty 2013-2019

- Moved into a leadership position and assisted in creating a strong productive work culture that resulted in substantial asset growth. Mentored bank employees while helping to ensure that daily operations for the branch ran as expected.

#### Personal/Relationship Banker 2011-2017

- Successfully established a pipeline of clients and assisted the immediate area with basic lending needs and financial planning. Collaborated to source new clients for business partners and investment advisors.

## Education

**UCLA Extension | Full Stack Certificate**

*Westwood, CA 2019 - 2020*

**Southern New Hampshire University | BS in Computer Programming**

*Remote, 2017 - 2021*
